## SIDE EVENT: NATIONAL BIODIVERSITY STRATEGIES AND ACTION PLANS: LESSONS LEARNED AND WAY FORWARD

Day/Date: Monday 9th July 2018

Venue: Room A

Time: 13:15pm

The United Nations Development Programme and the United Nations Environment Programme have implemented and executed a project funded by the Global Environment Facility to support countries in the revision of their National Biodiversity Strategies and Action Plans in the light of the Strategic Plan for Biodiversity 2011 - 2020.

This side event is an opportunity for all Stakeholders to take stock of this extensive process as we approach the end of the decade by debating:

1. Lessons learned from NBSAP revision;
2. Effective NBSAP Implementation, and;
3. The future of NBSAPs.

Participants in the event will also have the opportunity to share their experiences about the updating/revising/reviewing the NBSAPs

Analysis of aspects of the process will be presented by the Secretariat of the Convention on Biological Diversity, the United Nations Development Programme, the United Nations Environment Programme and the United Nations Environment World Conservation Monitoring Centre.

A panel discussion will follow thereafter.

This side event is part of a long-standing partnership between:
